Software Development | Networking, Security & Scalable Systems | Cyber Security & ML Developer

EDUCATION

Medi-Caps University, Indore – Indore, Madhya Pradesh

B.Tech in Computer Science | Expected Graduation: May 2026

PROFILE SUMMARY

Enthusiastic Software Engineer with expertise in AI/ML, systems software, networking protocols and security and cloud technologies. Skilled in Python, C++, REST APIs, and GenAI. Experienced in applying deep learning frameworks like TensorFlow and PyTorch to build scalable, secure solutions. Passionate about distributed systems and eager to deliver enterprise-grade AI applications.

PROJECTS & EXPERIENCE

- **[Cryptocurrency Price Prediction Platform](#)**

Self-Initiated | Jan 2025 – March 2025

React, Flask, Python, LSTM |

Built and deployed an LSTM-based crypto price predictor with real-time frontend integration and cloud scalability.

- **Educational Career Roadmap Platform**

Self-Initiated | *React, Flask* | Jan 2025 – Present

Developed a career guidance platform with AI-driven skill analysis, personalized learning paths, and job listings.

- **[Talent AI – HR Helper System](#)**

Full-Stack AI Developer | *Next.js, Firebase, Genkit* | Mar 2025 – May 2025

Built an AI-powered HR tool automating resume screening and JD creation using Genkit and Firebase infrastructure.

CERTIFICATIONS & ACHIEVEMENTS

- Deep Learning Essentials | IBM | 2025
 - CCNA (All three modules) | Cisco | 2025
 - Introduction to Cybersecurity | Cisco | 2025
 - Python Essentials 1 & 2 | Cisco | 2025
 - Career Essentials in Cybersecurity | Microsoft and LinkedIn | 2025
 - AWS Cloud Clubs Generative AI Camper | Amazon Web Services | 2024
-

SKILLS

- **Languages:** Python, JavaScript, C++, C, SQL, HTML/CSS
- **Frameworks & Tools:** React.js, Flask, AWS, Docker, Git, REST APIs
- **Expertise:** Data Structures & Algorithms, Machine Learning, Cloud Computing, Cybersecurity, Full-Stack Development
- **Systems:** Proficient in Unix/Linux environments
